Anyone in the business industry can attest to the grueling challenges that come along the way when trying to grow a business and officially make it big in the industry. It takes a lot of business acumen to hit the ground running, and most aspiring founders are left without a clue on how to make their companies truly thrive. Ron Bauer has become one of the most influential business mentors by applying his valuable insights to many founders worldwide, helping them gain the necessary footing to survive in the often unpredictable world of entrepreneurship.

Experience is one of the greatest teachers. Ron Bauer is equipped with over two decades of business experience, which has steeled him to become a titan in his chosen industry. There might be a plethora of opportunities in the realm of business, but only a few expert individuals have truly made it to the top. Through his tenure, Ron Bauer has guided and mentored several aspiring founders to attain the success that they truly deserve.

By creating an innovative roadmap for success, Ron Bauer has acquired the blueprint that has allowed him to help founders scale up their businesses and raise capital and ultimately go public on a global stock exchange. "We have first-hand experience and knowledge as we have completed this journey a number of times ourselves as founders," explained the lead authority, Bauer. Ron Bauer is a venture capitalist, serial entrepreneur, business mentor and author. He has focused his endeavors in various sectors such as Life Sciences, Technology, EdTech, and Natural Resources, adapting to ever changing market conditions.

Ron Bauer has garnered success by working in tandem with some of the world's leading entrepreneurs, scientists, and world-class academic institutions. He has played an important role in helping countless founders through the difficult stages of scaling up their business and raising capital, guiding them throughout the early stages of angel and seed funding all the way to public mergers, IPOs, and even through trade sales with larger public and private companies, as well as a SPAC deal in recent years.

The renowned business mentor has been a major shareholder and principal investor in many companies. He was the co-founder of Turkana Energy, which merged with Africa Oil (TSX: AOI) in July 2009. The company went on to have a peak market value of over \$3 billion CAD, having raised in excess of \$1 billion of equity after Tullow Oil successfully drilled Turkana's oil concession. He is also a principal investor in many biotech, tech and natural resources companies.

With a forward-centric approach to business, Ron Bauer in the past few years was a principal investor in companies such as 180 Life Sciences (NASDAQ: ATNF), Pasithea Therapeutics (NASDAQ: KTTA), Stran & Co (NASDAQ: STRN), Genflow Biosciences (LSE: GENF), Hemogenyx Pharmaceuticals (LSE: HEMO), and Cognitivity Neurosciences (CSE: CGN). Time and time again, the hard working entrepreneur has proved to be a massive force in the world of venture capitalism.

He has successfully raised capital across all sectors and all geographies due to his remarkable ability to adapt himself to changing economic climates and diversifying his sectors of focus. By building upon his own knowledge and expertise, Ron Bauer has created a tried and tested system that he uses with the founders he mentors. He teaches this rigorous system to other aspiring company founders through his mentorship program.
